Guide to upload the presentation

(Computer Science Engineering BSc/MSc, Business Informatics MSc, Computer Science BSc/MSc, Data Science MSc)

Those students who do not have to defend their thesis (i.e. defended it before successfully or TDK paper or FIRCC paper was accepted as thesis), do not have to create presentation.

Graduating students who are on the program of Business Informatics BSc, do not have to create a presentation.

Before uploading the presentation students on the programs CSE BSc/MSc, BI MSc, CS BSc/MSc, DS MSc must indicate the name of the board and the date of the final exam.
We ask everyone to indicate the date you have been registered -most probably latest by 2 December- for the Final Exam according to Neptun. You can check in the Neptun:

Menu – Exams – Final exams

Presentation upload deadline:
16 December 2026 (Wednesday) 10 am

Structure of the presentation (10 slides max):

1. Thesis title, author and supervisor' s name (1 slide)
2. Problem posing, presenting the background, the task to be solved, including and highlight the independent work (1- 2 slides)
3. Brief, factual summary of the principles, methods and technologies used for the solution (1-2 slides)
4. Description of the independent work (planning, development, measurement, analysis, testing) (1-2 slides)
5. Conclusions, suggestions (1 slide)
6. Main references, bibliography (1 slide)

If software/hardware has been created, a screenshot, short video or demo should be shown in the presentation.

Important! We strongly urge everyone to follow the instructions when naming the file:

File name: **NeptunCode_EduID_SurnameFirstname**
Maximum number of files: 1
Maximum file size: 1GB
Allowed file types: **PPTX, PPT, PDF**

After given the appropriate data the prepared file should be uploaded to the link below:
