

Computer Science BSc

Final Exam

a., Requirements for Final Exam

1. Complete all the 180 credits required by the curriculum of program specialisation to have the degree of BSc program
2. Carry out the internship
3. Write and submit the Diploma Thesis

b., Process of the Final Exam

The Final Exam consists of an oral part only and the purpose is to examine the coherence of the professional knowledge.

F. The average from the grades of the oral exam (rounded to a whole number) consists of an item of the Mathematical and computer sciences knowledge and an item of the Informatical sciences knowledge. If the grade for any item is failed, the grade is failed, and the final examination is failed.

D1. Thesis defence. During the defence the candidate has to sum up the Thesis in a short presentation then s/he answers the questions from the referee of the Thesis and the members of the Committee.

D2. The grade for the thesis, which is determined by the Final Examination Committee taking into account the grade proposed by the thesis assessor.

Calculation of the final examination grade (**ZV**): $ZV = (F + D1 + D2) / 3$

If the grade of D2 failed, the candidate will not be allowed to sit the final examination.

If any of the grades of F or D1 are unsatisfactory, the final exam is also unsatisfactory. Only the component graded as unsatisfactory must be retaken in the retake of the final examination.

Grade of Diploma:

Diploma grade: in the case of a successful final examination, it is determined on the basis of the average of the following results:

SZ: average of the grades for the 'Thesis 2' subject, the grade for the examination of the thesis and the grades obtained for the defence of the thesis in the final examination, rounded to two decimal places

F: Average of the grades obtained in the final examination, rounded to a whole number

T: the average of all compulsory and optional professional subjects completed during the course of training, except for the 'Thesis 2' subject, weighted by credits, rounded to two decimal places.

Diploma grade = $(SZ+F+T)/3$

Based on the above average result, the qualification of the diploma is determined by the University of Debrecen's Academic and Examination Regulations, Section 31 (7).

The diploma shall be assessed based on the calculation of the grade average as follows:

outstanding 4,81-5,00

excellent 4,51-4,80

good: 3,51-4,50

satisfactory: 2,51-3,50

pass: 2,00-2,50
