

Dear Partners!

The Faculty of Informatics of the University of Debrecen is organizing the 28th edition of the IT Professional Days on 12-13 October 2023 (Thursday-Friday), to which your company/institution/organization is cordially invited.

As in previous events, the event will again be held in a hybrid format. This means that our speakers will be able to present both physically and online, and our audience will be able to follow their presentations via streaming. There will also be the possibility to set up a physical stand or an online standroom according to the needs of our partners.

If you would like to participate in the IT Professional Days, please fill in the registration form.

Registration starts on 4 September (Monday).

Registration deadline: 25 September (Monday) 24.00

Registration interface: <https://ik.unideb.hu/szakmainapok/regisztracio/>

To access the registration area, everyone must register, previous registrations are no longer valid.

The venue is the Faculty of Informatics of the University of Debrecen (4028 Debrecen, Kassai út 26.).

Within the framework of the IT Professional Days, we offer our company/institutional partners the opportunity to give two 30-minute presentations in Hungarian and/or English, to have a stand on the floors of the Faculty building, and to conduct trial interviews with our students. The fee for our partners for the entire duration of the event is 75 000 HUF.

Our partners can choose Key Partner status, too. In this case they can set up their stand in the lobby of the Faculty building, on the ground floor. In addition to the Partner status, we will also ensure that their company name and logo will be prominently displayed on the event website, they will be featured in DEIK news related to the event, they will receive an extra 30 minutes of presentation and their promotional video will be played in the lobby during the event. This status is available for 200 000 HUF.

Partners who wish to have an online presence can choose the Online Partner status, which includes a 30-minute online presentation in Hungarian/English and an online standroom with the possibility of trial interviews. This status is available for HUF 50 000.

Presentation dates and stand places are available on a first come, first served basis, so the earlier you register, the more stands you can choose from. There are currently two sessions for which presentations can be booked, so two time slots can be reserved for each date.

Please register with these in mind.

The programme of the workshops will be published on 4 October and further technical details will be kept available.

Deadline for payment of the participation fee: midnight 6 October 2023

Participants can choose the payment method that suits them best from the following options:

- Donation contract (VAT exempt)
- Stand rental contract (in this case 27% VAT is added to the participation fee, this option is only available to physical participants)

To encourage student interest, a raffle draw will be held at the end of the event. The raffle tickets will be distributed in proportion to the attendance at the lectures, i.e. those who attended more lectures will receive more raffle tickets. We ask our esteemed partners to support this endeavour by donating raffle items, which we thank in advance.

We will keep our partners updated with further details on the event.
